TOCH POGNARITH

GAME DEVELOPER | UNREAL ENGINE • UNITY • C++ • C#
Phnom Penh, Cambodia | Contact: [confirm phone] | Email: [add email] | Portfolio: [add link]

PROFESSIONAL PROFILE

Game Developer at SIL Animation Studio since 2017, with hands-on experience across 2D and 3D games, augmented reality (AR), virtual reality (VR), and interactive applications. Worked primarily with Unity for approximately five years before shifting focus to Unreal Engine for approximately four years, while continuing to use Unity occasionally. Recently began exploring Godot. Passionate about creating games, solving gameplay challenges, and developing interactive experiences.

CORE SKILLS

Engines: Unreal Engine (C++ and Blueprints); Unity (C#); Godot (beginner, 3–4 months)

Development: Gameplay programming, game systems, 2D/3D development, AR/VR experiences, debugging, integration and customization of third-party plugins/frameworks

Programming: C++, C#; foundational Java knowledge

Other tools: Blender (experience level to confirm)

PROFESSIONAL EXPERIENCE

SIL Animation Studio | Game Developer | 2017–Present

- Worked on a variety of studio projects involving 2D, 3D, AR, VR, and other interactive experiences.
- Developed and integrated game functionality using Unity and Unreal Engine, working with C#, C++, and Blueprint visual scripting.
- Used, configured, and where appropriate extended existing plugins and gameplay frameworks to meet project needs.
- Contributed to internal game development alongside client-project commitments.

SELECTED PROJECT

Angkor: Rise of Heroes | Internal game project, in development

Long-running Cambodian-inspired game project developed intermittently over approximately nine years alongside studio client work. Development began in Unity and later moved to Unreal Engine.

- Contributed to gameplay systems and technical implementation across the project's development phases.
- Worked with engine tools, third-party frameworks, and custom implementation; specific contributions can be demonstrated in a portfolio.

EDUCATION

Royal University of Phnom Penh (RUPP) | Information Technology

Completed fourth-year studies; no degree awarded. [Confirm final attendance year]

ADDITIONAL LEARNING

Visual C# for Unity3D (online course); Game Development with Unity3D (Udemy); ongoing self-directed game engine learning.
